

Experienced Full Stack Developer adapt in all stages of advanced software development. Drive performance turning, query plans, indexing and table partitioning. Write reusable unit test documents to ensure quality control and identify bugs. Able to effectively self-manage during independent projects, as well as collaborate in a team setting. Highly motivated, skilled and passionate web developer. Challenging every day, to grow, to learn and to improve and bring the best of my experience and abilities to my complementary roles. Happy working remotely as I am when getting together in the office and am open to and enthusiastic about working with team members across multiple geographic locations.
